Family Domestic & Sexual Violence Support Program

Yura Yungi Medical Service

Our Key Elements

The Key elements of this project and the activities we will undertake to deliver this project:

1 Early Intervention

Educate the community about the determinants of domestic violence, when to seek help and how to seek help, understand their human rights so that they will be able to come up with the right decisions.

2 Crisis Response

Support the individuals and families experiencing domestic violence by acting as conduit/advocate to access more services, provide assistance with travel, temporary accommodation and basic necessities (e.g. evacuation pack)

3 Creation of Safety Plan

Intensive interview, planning and preparation of safety plan

4 Treatment

Provide health and wellbeing support.

5 Recovery, Healing/Reintegration

Encourage participation to community activities and capacity building.
